

New out now: PULLEY PRO XS

Wenn die unten stehenden Informationen nicht korrekt dargestellt werden, klicken Sie bitte [hier](#).

THE NEW PULLEY PRO XS

TWO PLAIN BEARINGS AND LINE-FRIENDLY

2 bearings and reduced wear on the line. Two innovations that may be hard to spot but represent a leap in development.

Our newly developed [Pulley PRO XS](#) comes with two innovations that may be hard to spot but represent a leap in development: The pulley now has two plain bearings, which provide enhanced axial and radial support. This results in improved pulley characteristics and reduced noise.

We've also chamfered the edges of the brass wheel to reduce wear on the line. Our new pulley has a straight-aligned axle and is made from high-quality brass with a light-weight aluminum housing. Experience the future of pulley technology with our high-performance Pulley PRO XS.

FEATURES

FASUNG CHAMFERED

- leinenschonender
more gentle on the line
- weniger Verschleiß
causes less wear

GLEITLAGER PLAIN BEARING

- axiale und radiale Lagerung
axial and radial plain bearing
- bessere Rolleigenschaften
improves the pulley characteristics
- geringere Geräuschentwicklung
reduces noise

SPECIFICATIONS

ART.NO.	NAME	MATERIAL	SLOT	WEIGHT
FL32AG	FLUGROLLE PRO XS	aluminium, brass	8 mm	8 g

10 mm

L: 31 mm

3 kN
