

PRICE LIST & PRODUCT RANGE 2021

More than ever: We are "Made in Austria"

Next year AUSTRIALPIN celebrates its 25th anniversary. We have taken this as an occasion to look back and to reflect on our own roots and values. Summarized in one sentence this means: AUSTRIALPIN stands more than ever for "Made in Austria"!

Focus on in-house production

Since its foundation in 1996 AUSTRIALPIN stands for independence and first-class quality products, which are not only developed but also produced locally. In the future, however, we will focus even more on our core competence - metal processing in the Stubaital - and will therefore no longer offer ropes as well as alpine slings in 2021.

AUSTRIALPIN Prices Components 2021

The prices of our components (COBRA buckles, thread back buckles and rings) are 100% the same as last year. However, there is a change in our minimum order quantities (MOQs): These have been adapted to be more environmentally friendly so that no half-filled boxes are sent out anymore. Here is an example of how this affects the MOQs:

Packaging Unit	MOQ (polished / ktl)	MOQ (anodized / HPC)
70	210	560
90	270	540

100	200	500
120	240	600
200	200	600
250	250	500

You can find all details about prices and assortment in the attached AUSTRIALPIN price list.
If you have any questions please do not hesitate to contact us at office@austrialpin.at.

Stay healthy!
Your AUSTRIALPIN team

The new Data Protection Law of the European Union (GDPR) sets new standards for the transparency and responsibility of companies which work with and process personally provided data. We take this opportunity to inform you about the protection of your personal data as well as about the rights you have as regards receiving this newsletter.

The protection of your data is of great importance to us. Thus, it goes without saying that the personal data you provide us with is not supplied to any third party. You can at any time make use of your right to correct (update) the data, obtain information regarding the data or delete the data.
